Reviews

"A restaurant in Baltimore or a sleek New York apartment: It's all one big back room, where political horse trading is conducted with ruthless intensity and oily smiles in *Warrior Class*, an absorbing, incisive new play by Kenneth Lin that crackles with authenticity."

- *New York Times*

"Lin's taut, provocative play thrives on its characters' ambivalence; it avoids being reductive while examining 'lowest common denominator thinking' inherent in today's politics, especially where race is involved."

- *Entertainment Weekly*

"What's this -- a new play with an actual brain in its head? ... Kenneth Lin's *Warrior Class* is not only smart, it's also politically potent material for an election year."

- *Variety*

"This smart, tight, topical 90-minute tale of political maneuvering assembles an ace cast. When you think all has been said and done, it delivers a final surprise move."

- *New York Daily News*

Native American Gaming

Since the 1970s, a battle has raged between the State and Tribal governments surrounding tribal sovereignty. States want to regulate activities on reservations, but the federal government has repeatedly upheld tribal sovereignty. This ruling opened the door to Native American casinos, bingo halls and other gaming establishments representing a \$27 billion business annually. Local communities frequently resist applications to build gaming resorts citing a reduction in county taxes and unconvincing evidence of positive economic impact for tribal members. In 1988, Congress passed the Indian Gaming Regulation Act stating that tribes and states must have agreements for gaming activities, but only the Federal Government can regulate gaming.
